Review lecture	
Evolution of gastrointestinal bacteria with respect to their pathogenicity Lothar H. Wieler and Jörg Jores - Institut für Mikrobiologie und Tierseuchen, Freie Universität Berlin, Philippstraße 13, D-10115 Berlin	11-16
Metabolism, growth, lactation	
1. Influence of ambient temperature on plasma concentrations of cholesterol and triglycerides in lamb up to the 72nd hour of life A. Wehrend, G. Kaya and H. Bostedt - Giessen	17
2. Effects of glucocorticoids and colostrum feeding on gut-associated lymphoid tissue and thymus in neonatal calves Johanna Norrman, C. David, Stephanie N. Sauter, H. M. Hammon and J. W. Blum - Berne	18
3. Effects of dexamethasone on the somatotropic axis in neonatal calves and dependence on colostrum intake H. M Hammon, Stephanie N. Sauter, E. Ontsouka, Bettina Roffler, Chantal Philipona, Yolande Zbinden, M. W. Pfaffl and J. W. Blum - Berne/Freising-Weihenstephan	19
4. Effects of feeding varying amounts of milk replacer and different weaning age on growth of female Holstein calves U. Meyer, M. Spolders, E. Strobel and G. Flachowsky - Braunschweig	20
5. Effect of stage of lactation and live weight changes on regression coefficients of milk yield, NEL content and concentrate level for predicting DMI of dairy cows L. Gruber, T. Guggenberger, A. Steinwidder, A. Schauer, J. Häusler - Irdning	21
6. Effects of feeding intensity and time on feed on carcass and meat quality traits of Fleckvieh bulls A.S. Sami, C. Augustini and F. J. Schwarz - Freising-Weihenstephan/Kulmbach	22
7. Deposition of energy and utilization of energy for growth in fattening lambs of the genotype German Merino G. Bellof and J. Pallauf - Freising-Weihenstephan/Giessen	23
8. Effects of fructose or glucose supplementation on metabolic responses under resting and exercising conditions in horses Ingrid Vervuert, M. Coenen, Mirja Bichmann and Judith Möhrer - Hannover	24
9. Glucose metabolism in neonatal calves: effects of glucocorticoids and dependence on colostrum feeding Stephanie N. Sauter, Bettina Roffler, S. S. Donkin, Chantal Philipona, Yolande Zbinden, J. W. Blum and H. M Hammon – Berne/West Lafayette	25

10.	Application of a test procedure to monitor oxidative stress in lactating cows under field conditions	26
	Michelle Rekitt, U. Andresen and Helga Sauerwein - Bonn/Albersdorf	
11.	Growth rates in relation to osteochondrosis in Hanoverian warmblood foals	27
	Ingrid Vervuert, M. Coenen, Angela Borchers, Maïke Granel, Sarah Winkelset, L. Christmann, O. Distl, E. Bruns, and B. Hertsch - Hannover/Göttingen/Berlin/Verden	
12.	Performance of rainbow trout fed diets varying in fat and protein concentrations and in two feeding intensities (Satiation or Restriction)	28
	Feyza Sanver, M. Hovenjürgen, S. Brenner, E. Pfeffer - Bonn	

Minerals and trace elements

13.	Studies on the hydrolysis of phytate in the large intestine of pigs	29
	U. Schlemmer and K.-D. Jany - Karlsruhe	
14.	Phosphorus utilization and activity of phytate degrading enzymes in the digesta of different parts of the digestive tract of chicken	30
	H. A. Sukria, F. Liebert, J.K. Htoo, U.Schlemmer and K.-D.Jany - Göttingen/Karlsruhe	
15.	Effects of the amount of dietary soybean oil and the adaptation mode on the digestibility of selected minerals (Ca, P, Mg, Na, K, Cl, S) in horses	31
	Annette Zeyner and A. Dittrich† – Leipzig	
16.	The macro- and trace-element supply of mares and their foals with regard to osteochondrosis in foals	32
	Sarah Winkelset, Maïke Granel, M. Coenen, Ingrid Vervuert, Angela Borchers, O. Distl, E. Bruns, B. Hertsch and L. Christmann – Hannover/Göttingen/Berlin/Verden	
17.	Effect of microbial phytase on the bioavailability of zinc in piglet diets	33
	W. Windisch, J. Broz and F.X. Roth – Freising-Weihenstephan/Basel	
18.	The digestibility of organic and inorganic copper and zinc in diets of growing pigs	34
	W. Pelletier, B. Zacharias and W. Drochner - Stuttgart-Hohenheim	
19.	Influence of increasing nutritional iodine intake on thyroid hormones T₃, FT₃, T₄ and FT₄ in cats	35
	D. Ranz, W. Kraft and W.A. Rambeck - München	
20.	Effects of anion rations at different durations of application on the milk fever prophylaxis	36
	M. Füll, J. Bauerfeld and L. Jäkel - Leipzig	
21.	Phytate degradation in different parts of the gut depending on native phytase activity and phytase supplementations in broiler diets	37
	J. K. Htoo and F. Liebert - Göttingen	
22.	Interaction between feeding level and efficiency of microbial phytases in pigs	38
	K. Paditz, H. Kluth and M. Rodehutschord - Halle (Saale)	
23.	Effect of varied sulfur supply on growth, feed intake and trace element concentrations in different tissues of growing bulls	39
	Anke Wessels, F. J. Schwarz and H. Schenkel – Freising-Weihenstephan/Stuttgart-Hohenheim	

24. **Global gene expression profiling in the liver of selenium deficient growing rats** 40
Alexandra Fischer and J. Pallauf - Giessen
25. **The results of a cDNA microarray analysis on the influence of manganese deficiency on gene expression in growing rats could only partly be confirmed by a rerun** 41
K. Brandl, A.S. Müller and J. Pallauf – Giessen

Transport and cell-physiology

26. **Regulation of the ruminal sodium-glucose cotransport by monosaccharides** 42
J. R. Aschenbach, C. Atasoglu and G. Gäbel - Leipzig
27. **Innervation of the ovine forestomach in relation to development and feeding behaviour** 43
Helga Pfannkuche, Corinna Schellhorn and G. Gäbel - Leipzig
28. **Effects of liquid and solid diets on P-excretion by Saanen goat kids during weaning** 44
Ursula Boeser, M. Hovenjürgen, Korinna Huber, Julia Hattendorf, G. Breves, E. Pfeffer - Bonn/Hannover
29. **Effects of a high phosphorus intake on the endogenous phosphate cycle of just weaned lambs** 45
Julia Hattendorf, Uschi Boeser, Korinna Huber, M. Hovenjürgen, E. Pfeffer, G. Breves - Hannover/Bonn
30. **Organic cation transport in the porcine proximal colon** 46
Vivica v. Vietinghoff, Kerstin U. Honscha, G. Gäbel and J.R. Aschenbach - Leipzig
31. **Concentration dependence of the bioavailability of quercetin from different quercetin sources in pigs** 47
R. Cermak, Sandra Michaelsen and S. Wolffram - Kiel
32. **Distribution patterns of glucose transporter GLUT1 and GLUT4 in bovine and rat skeletal muscle** 48
R. Dühlmeier, J. Voigt, G. Breves, W. v. Engelhardt and H.-P. Sallmann - Hannover/Dummersdorf
33. **Intestinal development in neonatal calves: Effects of glucocorticoids and dependence on colostrum feeding** 49
Stephanie N. Sauter, Bettina Roffler, Chantal Philipona, Claudine Morel, Veronique Romé, P. G. Guilloreau, J. W. Blum and H. M. Hammon - Berne/Rennes
34. **Cell proliferation, apoptosis, and B- and T-lymphocyte distribution in ileum, thymus and lymphnodes of pre-term and full-term calves at birth as well as on day 5 of life** 50
C. W. David, Johanna Norrman, Sabine Bittrich, H. M. Hammon and J. W. Blum – Berne
35. **Influence of the diet on the morphology of the gastrointestinal tract and on the level of carbohydrase activity of the small intestine in growing bulls** 51
R. Žitňan, S. Kuhla, J. Voigt, Ulrike Schönhusen, Zuzana Čerešňáková, A. Sommer – Dummerstorf/Nitra

36.	Intestinal morphology, intestinal epithelial cell proliferation and intestinal absorptive capacity in neonatal calves that were fed insulin-like growth factor-I or a colostrum extract Bettina Roffler, A. Fähr, Stephanie N. Sauter, H. M. Hammon, P. Gallmann, G. Brem and J. W. Blum - Berne/Vienna	52
37.	Expressions and binding capacities of insulin-like growth factor and insulin receptors in the intestinal mucosa of neonatal calves I. P. Georgiev, Teodora M. Georgieva, M. Pfaffl, H. M. Hammon and J.W. Blum – Berne/Stara Zagora/Freising-Weihenstephan	53
38.	Expressions of insulin-like growth factor (IGF)-I and -II , IGF-binding proteins (IGFBPs) -2 and -3, and growth hormone (GH) receptors, IGF type 1 and 2 receptors and insulin receptors in the gastrointestinal tract (GIT) of neonatal calves E. Ontsouka, H. Hammon and J. W. Blum - Berne	54
39.	Effects of dexamethasone (DEXA) and feeding on mRNA levels of insulin-like growth factor (IGF)-I and -II, IGF-binding proteins (IGFBPs) -2 and -3, and growth hormone (GH) receptors (GHR), IGF type 1 and 2 receptors (IGF-IR and IGF-IIR) and insulin receptors (IR) in the gastrointestinal tract (GIT) of neonatal calves E. Ontsouka, Stephanie Sauter, J.W. Blum and H. M. Hammon - Berne	55
40.	Quantitative mRNA analysis of bovine 5-HT receptor subtypes in brain, abomasum, and intestine by real-time PCR M. Reist, M. W. Pfaffl, J. W. Blum and A. Steiner - Berne/Freising-Weihenstephan	56

Digestion

41.	Influence of dietary protein source (poultry, beef) and manufacturing process (canning, extrusion) on the compatibility and digestibility of mixed diets and some intestinal parameters in dogs J. Zentek, Sonja Fricke, Marion Hewicker-Trautwein, Britt Ehinger, G. Amtsberg, C. Baums – Hannover/Wien	57
42.	A methodological approach to study the variation in amino acid digestibility between pea cultivars, considering endogenous secretion in broiler chicks H. Kluth, M. Mantei, G. Hartmann and M. Rodehutschord - Halle (Saale)/Bernburg	58
43.	Comparison of grazing systems in their effects on ruminal pH fluctuation, chewing activity and milk yield in cows Frigga Dohme, C.M. Graf and M. Kreuzer - Posieux/Zürich	59
44.	In vitro fermentation characteristics of carbohydrate-rich feedstuffs inoculated with digesta from different sections of the pig large intestine Eva Bauer, Barbara A. Williams, Christina Voigt, R. Mosenthin and M.W.A. Verstegen - Hohenheim/Wageningen	60
45.	Effects of different nitrogen levels and sources on methane and gas production in vitro Patricia Leberl, H. Steingäß, H.-P. Piepho, W. Drochner - Stuttgart-Hohenheim	61

46.	<i>In vitro</i> rumen fermentation and methane formation with diets characterised by different carbohydrate types	62
	Ida K. Hindrichsen, H.-R. Wettstein, Andrea Machmüller, Carla R. Soliva, J. Madsen and M. Kreuzer – Zürich/Copenhagen	
47.	Effects of rumen protozoa on energy metabolism in calves	63
	Ulrike Schönhusen, W. Jentsch, R. Zitnan, M. Derno, J. Voigt - Dummerstorf/Nitra	
48.	Local differences of protozoa numbers and pH in the rumen of dairy cows fed various concentrate levels	64
	M. Tafaj, Julia Feofilova, Anja Maulbetsch and W. Drochner - Stuttgart-Hohenheim/Orjol	

Additives

49.	Specific enumeration of the probiotic strain <i>Enterococcus faecium</i> NCIB 10415 in the intestinal tract and feces of piglets as determined by colony hybridization	65
	M. Macha, W. Vahjen, A. Arini, O. Simon – Berlin/Barbengo	
50.	Effects of a probiotic preparation of <i>Enterococcus faecium</i> (SF 68) on epithelial transport properties of pig jejunum	66
	Ulrike Lodemann, Katrin Hübener, Nicole Jansen, H. Martens - Berlin	
51.	Effects of different probiotics on the secretory responses of pig small intestines	67
	Sabine Leonhard-Marek, Bernd Schröder and Gerhard Breves - Hannover	
52.	Influence of living and autoclaved yeasts from <i>Saccharomyces boulardii</i> on <i>in vitro</i> ruminal fermentation	68
	H. Öztürk and G. Breves - Hannover	
53.	Effects of Topinambur inulin on caecal bacteria, microbial endotoxins and body weight gain of broilers	69
	Brigitta Kleessen, N. Elsayed, W. Schroedl and Monika Krueger - Leipzig	
54.	Influence of inulin or a brown algae preparation on the intestinal microflora of broiler chicken	70
	Ute Hansen, Anke Jadamus, W. Vahjen, O. Simon - Berlin	
55.	Influence of plant extract on the morphological and histochemical patterns of digestive tract wall in chickens	71
	Dorota Jamroz, M. Houszka - Wrocław	
56.	Influence of dietary β-glucan on various parameters of immune defense and on oxidative stress in pigs	72
	Simone Schmitz, Stephanie Hiss and Helga Sauerwein - Bonn	
57.	Effects of aerial plant parts of <i>Echinacea purpurea</i> on humoral immune system and body weight gain in piglets	73
	F. Ahrens, Eva Lang and M. Erhard - München	
58.	Concentrations of lipids in broiler-chicks' tissues fed low-protein diets supplemented with CLA or an α-glucosidase inhibitor	74
	Brigitte R. Paulicks, V. A. Aletor, K. Eder, F. X. Roth, and Dora A. Roth-Maier - Freising-Weihenstephan/Akure/Halle (Saale)	
59.	Effects of lactulose as feed additive on chyme composition and intestinal microflora in weaned piglets	75
	R. Tabeling, O. Stuke, Sylvia Bollmann, G. Amtsberg, J. Kamphues – Hannover	

60.	The influence of 5 and 10 % dietary pectin on the pH and the content of lactate in the caecal chyme of weaned pigs	76
	B. Zacharias, A. Kerler and W. Drochner - Stuttgart-Hohenheim	
61.	Effects of an <i>Enterococcus faecium</i> supplementation on the growth performance of weaned piglets	77
	Brigitte R. Paulicks and Dora A. Roth-Maier - Freising-Weihenstephan	
62.	Influence of formic acid, sorbic acid and hydrochlorid acid on selected gastrointestinal and microbiological parameters in early weaned piglets	78
	L. Hasselmann, H. Münchow, J. Rühle, H. Nattermann - Berlin	
63.	Effects of dried leaves and essential oils from <i>Origanum</i> on growth of broiler chickens	79
	Ingrid Halle and R. Thomann - Braunschweig/Potsdam	
64.	Effects of phytase supplementation on parameters of growth, digestibility and nutrient utilization of Nile Tilapia - <i>Oreochromis niloticus</i>	80
	L. Portz, K. Benkendorff and F. Liebert - Göttingen	
65.	Effects of a dietary detoxification substance on the concentrations of retinol and retinyl esters in plasma and liver of mycotxin fed prepubertal female pigs	81
	S. Gericke, J. Raila, Susanne Döll, S. Dänicke, G. Flachowsky and F. J. Schweigert - Potsdam/Braunschweig	

Aminoacids and nitrogen

66.	Measurement of albumin synthesis in the pig by using [²H₅ring]phenylalanine	82
	S. Dänicke, E. Swiech, L. Buraczewska, K. Aulrich - Braunschweig/Jablonna	
67.	Prececal amino acid digestibility coefficients of Göttingen Minipigs and Saddleback pigs are comparable	83
	U. Hennig, Cornelia C. Metges, A. Berk, A. Tuchscherer and M. Kwella - Dummerstorf/Braunschweig	
68.	Evidence of a specific dietary selection for tryptophan by the piglet	84
	T. Ettle and F.X. Roth - Freising-Weihenstephan	
69.	Marginal efficiency of lysine utilisation in growing male chicken with different breeding background	85
	A. A. Fatufe, R. Timmler and M. Rodehutsord - Halle (Saale)	
70.	Effects of synchronisation of protein and energy availability in the rumen on microbial protein synthesis in dairy cows	86
	T. Kaswari, P. Lebzien, U. ter Meulen and G. Flachowsky - Braunschweig/Göttingen	
71.	Influence of sea level and vegetative stage of the pasture on cheese-making properties of cow milk	87
	F. Leiber, D. Nigg, M. Kreuzer and H.-R. Wettstein - Zürich/Vienna	
72.	Variability of lysine efficiency in different batches of peas (<i>Pisum sativum</i>) and consequences for lysine supply for growing pigs	88
	H. T. Thong and F. Liebert - Göttingen	

73.	Effect of hydrothermal processing of soybean flakes and peas (<i>Pisum sativum</i>) on efficiency of lysine for growing pigs	89
	H. T. Thong and F. Liebert - Göttingen	
74.	Effect of apparent ileal digestible lysine to energy ratio on performance of finishing pigs at different dietary metabolizable energy levels	90
	T. Etle and F.X. Roth - Freising-Weihenstephan	
75.	Influence of level of N-deposition on determination of lysine efficiency in diets for Nile-Tilapia (<i>Oreochromis niloticus</i>)	91
	K. Benkendorff, L. Portz and F. Liebert - Göttingen	
76.	Investigations on protein requirement for maintenance in macaws	92
	Petra Wolf, G. Britsch and J. Kamphues - Hannover	
77.	Impact of L-threonine supplementation in proteinreduced diets for broilers	93
	R. Leitgeb, A. Kranewitter, R. Khidr, F. Hutterer und J. Bartelt - Wien	

Fat and lipids

78.	Are n-3 or n-6 fatty acids useful in reducing the release and activity of inflammatory mast cell mediators?	94
	T. Gück, A. Seidel and H. Fuhrmann - Leipzig	
79.	Effect of oxidized LDL and vitamin E on differential gene expression in primary human endothelial cells	95
	J. Majewicz, Anne-Marie Minihane, R. Ambra, F. Virgili, G. Rimbach - Reading/Rome	
80.	Increased infarct volume after high intake of polyunsaturated fatty acids is rather caused by reduction of antioxidants than by incorporation of polyunsaturated fatty acids in brain tissue	96
	M. Stohrer, Z. Grahovac, D. Butenandt, M. Schlachter, M. Stangassinger - Basel/München	
81.	Lauric and myristic acid, supplemented individually or in mixture, as affecting ruminal methanogenesis <i>in vitro</i>	97
	Carla R. Soliva, A. Cieślak, L. Meile, M. Kreuzer and Andrea Machmüller – Zurich/Poznań	
82.	Digestibility of energy, proximate nutrients and minerals and indicators of the gut microbes' activity in horses fed a moderat amount of soybean oil over 168 days	98
	Annette Zeyner and A. Dittrich† – Leipzig	
83.	Effects of urinary retinol excretion on the transport and storage of vitamin A in megalin deficient mice	99
	J. Raila, Tina Nollert, J.R. Leheste, T.E. Willnow and F.J. Schweigert - Potsdam/Berlin	
84.	Incorporation and metabolic conversion of n3 and n6 polyunsaturated fatty acids in mast cells	100
	Anja Seidel, Antje Meister, T. Gück and H. Fuhrmann - Leipzig	
85.	The effects of omega-3 fatty acids on the lipid metabolism of cats	101
	Rike Urban, Christine Iben, Elisabeth Wagner, M. Schreiner and Ilse Schwendenwein - Vienna	
86.	Impact on rumen fermentation when feeding diets supplemented with rapeseed and linseed oil	102
	A. Cieślak, A. Potkański, Malgorzata Szumacher-Strabel, Carla R. Soliva and Andrea Machmüller - Poznań/Zurich	

87.	The fat digestion in broiler chickens is influenced by age, dietary fat source, and microbial deconjugation of bile salts	103
	Ane Knarreborg and Ricarda M. Engberg - Foulum	
88.	Effect of different dietary fat sources and their levels on performance of broilers	104
	I. Abas, H. Özpınar, R. Kahraman, H.C. Kutay, H. Eseceli and M.A. Grashorn – Avcılar-Istanbul	

Free topics

89.	Effect of diet composition on toxicokinetic parameters of ochratoxin A (OA) in sheep	105
	J.-P. Rolfs, R. Blank, K.-H. Südekum, A. A. Frohlich, R. R. Marquardt and S. Wolffram - Kiel/Winnipeg	
90.	Toxicokinetics and metabolism of zearalenone in female piglets	106
	S. Dänicke, E. Swiech, L. Buraczewska, K.-H. Ueberschär – Braunschweig/Jablonna/Celle	
91.	<i>Fusarium</i> toxin residues in the body of piglets fed increasing amounts of contaminated maize	107
	Susanne Döll, S. Dänicke, K.H. Ueberschär, Hana Valenta and G. Flachowsky – Braunschweig	
92.	Influence of processing of isogenic and transgenic rapeseed on DNA-degradation	108
	Beatrice Berger, Karen Aulrich, G. Fleck and G. Flachowsky - Braunschweig/Magdeburg	
93.	Fate of DNA from isogenic and transgenic (Bt 176) maize after feeding to broilers	109
	M.A. Tony, A. Butschke, H. Broll, J. Zagon, M. Schauzu, Ingrid Halle, S. Dänicke and G. Flachowsky-Berlin - Braunschweig	
94.	The effects of deoxynivalenol (DON) on weight gain of weaned piglets	110
	J. Böhm, E. Razzazi – Wien	
95.	Progression of the mycotoxin and nutrient concentration in wheat grain after inoculation with <i>Fusarium culmorum</i>	111
	Karen Matthäus, S. Dänicke, Andrea Strumpf, Hana Valenta, H. Zieseniß and G. Flachowsky - Braunschweig/Mariensee	
96.	Determination of zearalenone in byproducts of cereal mills in Germany	112
	K.-H. Ueberschär, S. Dänicke and J. Wolff - Celle/Detmold	
97.	Feed-related transfer of polycyclic aromatic hydrocarbons (PAH's) into various tissues of broiler chicken	113
	Angela Sünder and F. Liebert – Göttingen	
98.	Nitrate content and ensiling potential of green forage	114
	Ehregard Kaiser, Iv Polip and Kirsten Weiß - Berlin
