<b>Review lecture</b>	
<b>Crosstalk between Nutrition and Immunity</b>	15 - 20
B. M. Goddeeris – Laboratory of Physiology and Immunology, Faculty of Applied Science and Engineering, K.U.Leuven, Belgium Laboratory of Immunology, Faculty of Veterinary Medicine, UGent, Belgium	
<b>Aminoacids and nitrogen</b>	
1. <b>Effects of a long-term high dietary protein intake on nitrogen dynamics in individual amino acids of the skeletal muscle of [<sup>15</sup>N]labeled adult rats</b>	21
A. Vikari, W. Windisch, K. J. Petzke, C. C. Metges and F. X. Roth – Freising-Weihenstephan/Wien/Potsdam-Rehbrücke/Dummerstorf	
2. <b>Influence of dietary ME and N concentrations on nitrogenous compounds in urine of dairy goats</b>	22
Saskia Plos, E. Pfeffer – Bonn	
3. <b>Efficiency of microbial protein synthesis studied in vitro with mixed rations for dairy cows</b>	23
J. Boguhn, H. Kluth and M. Rodehutsord – Halle (Saale)	
4. <b>Comparison of the amino acid pattern of different feedstuffs prior to and post in situ incubation</b>	24
Patricia Leberl, Susanne Remppis, H. Steingäß and W. Drochner – Stuttgart-Hohenheim	
5. <b>Effects of colostrum feeding and dexamethasone treatment on insulin-dependent glucose metabolism in neonatal calves</b>	25
B. Scheuer, Yolande Zbinden, J. W. Blum and H. M. Hammon – Bern/Dummerstorf	
6. <b>Reactions of plant phenolic compounds with whey and soy proteins influence the <i>in vivo</i> protein quality</b>	26
S. Rohn, H. M. Rawel, K. J. Petzke and J. Kroll – Potsdam-Rehbrücke	
7. <b>Crude Protein quality variation as affected by forage legume species during the spring growth</b>	27
M. Gierus, Jana Kleen, F. Taube – Kiel	
8. <b>Amino acid composition of microbial crude protein obtained from in vitro studies with mixed rations for dairy cows</b>	28
J. Boguhn, H. Kluth and M. Rodehutsord – Halle (Saale)	
9. <b>Investigations on protein requirement for maintenance in parrots</b>	29
Petra Wolf, G. Britsch, Annett-Carolin Häbich, Wiltrud Otte and J. Kamphues – Hannover	
10. <b>Effect of ileum segment and protein source on net disappearance rate of amino acids from the ileum of laying hens</b>	30
M. R. Rezvani, H. Kluth, C. Elwert and M. Rodehutsord – Halle (Saale)	
11. <b>Response to amino acid supplementation by laying hen</b>	31
Ingrid Halle and S. Dänicke – Braunschweig	
12. <b>Comparative amino acid digestibility studies with growing broilers, turkeys and ducks</b>	32
H. Kluth and M. Rodehutsord – Halle (Saale)	

13.	<b>Comparison of different methods for estimation of the N-maintenance requirement (NMR) in different species based on N-rise balance experiments</b>	33
	Angela Sünder and F. Liebert - Göttingen	
14.	<b>Prediction of the potential for protein deposition in growing and finishing pigs</b>	34
	C. Wecke and F. Liebert – Göttingen	
15.	<b>Standardization of ileal amino acid digestibilities in early-weaned pigs</b>	35
	M. Eklund, H. P. Piepho, M. Tafaj and R. Mosenthin – Stuttgart-Hohenheim	
16.	<b>Estimation of the lysine requirement for growing-finishing pigs depending on body weight and level of protein deposition</b>	36
	C. Wecke and F. Liebert - Göttingen	

## **Metabolism, growth, lactation**

17.	<b>Stable isotopes as tracers for the metabolic routing of individual dietary components</b>	37
	U. Focken – Stuttgart-Hohenheim	
18.	<b>Comparison of GfE and BUT nutrient requirements on growth and slaughter performance of turkeys</b>	38
	G. Gaber, R. Khidr, Katharina Krall, J. Bartelt, F. Hutterer and R. Leitgeb – Wien/Cuxhaven	
19.	<b>Relationship between energy supply, performance and metabolic parameters of dairy cows in early lactation</b>	39
	M. Ströhl, Simone Keßel, R. M. Bruckmaier and F. J. Schwarz – Freising-Weihenstephan	
20.	<b>Haptoglobin in serum and milk of cows: relations to metabolic parameters during the peripartal phase</b>	40
	Claudia Weinkauff, Sabrina Hachenberg, Stephanie Hiss, Ute Müller and Helga Sauerwein – Bonn	
21.	<b>Effect of different tannin contents in field beans on digestion parameters, feed intake and performance of dairy cows</b>	41
	Corinna Bissinger, H. Steingäß and W. Drochner – Stuttgart-Hohenheim	
22.	<b>Prediction equations for feed intake of lactating dairy cows</b>	42
	L. Gruber F. J. Schwarz, D. Erdin, B. Fischer, H. Spiekers, H. Steingäß, U. Meyer, A. Chassot, T. Jilg, A. Obermaier and T. Guggenberger – Irdning/Freising/Zürich/Iden/Bonn/Stuttgart-Hohenheim/Braunschweig/Posieux/Aulendorf/Poing	
23.	<b>Response of serum leptin concentrations during glucose infusion studies in pregnant versus early lactating goats</b>	43
	M. Mielenz, C. Seybold, Helga Sauerwein – Bonn	
24.	<b>Dry matter intake and growth of female Holstein calves fed varying amounts of milk replacer and weaned at different ages</b>	44
	H. Janssen, U. Meyer, M. Spolders and G. Flachowsky – Braunschweig	
25.	<b>Hepatic and intestinal retinoid and nuclear receptors in neonatal calves</b>	45
	Katrin Krüger, J. W. Blum and D. L. Greger – Bern	
26.	<b>Protective effects of glutamine supplementation against oxidative stress of race horses</b>	46
	M. Stohrer, B. Brincker, M. Stangassinger – München	
27.	<b>Effect of the <i>Fusarium</i> toxin deoxynivalenol (DON) on proliferation of porcine blood lymphocytes</b>	47
	Tanja Goyarts, S. Dänicke, Ute Tiemann, H.-J. Rothkötter – Braunschweig/Dummerstorf/Magdeburg	

28.	<b>Hepatic proteome analysis in goat lambs fed milk or soy protein based diets</b>	48
	S. Kuhla, Ulrike Schönhusen, J. Voigt, P. E. Rudolph, W. Tomek, R. Žitňan, Korinna Huber and Cornelia C. Metges – Dummerstorf/Hannover/Nitra	
29.	<b>Metabolic and endocrine status in ruminal drinkers</b>	49
	Madeleine Gygi, Yolande Zbinden, H. M. Hammon, A. Steiner and J. W. Blum – Bern	
30.	<b>Influence of duodenal and ileal infusions of bile salts on the exocrine pancreatic secretion in conscious pigs</b>	50
	S. G. Pierzynowski, V. Sileikiene, D. Kruszewska, J. L. Valverde Piedra, S. Szymanczyk, P. C. Gregory, E. Werpachawska and R. Mosenthin – Lund/Gdynia/Stuttgart-Hohenheim/Hannover	
31.	<b>The effect of nucleotide supplementation on oxidative stress induced by high dietary fat intake in pigs</b>	51
	J. Salobir, Vida Rezar, Tanja Pajk, Alenka Levart – Ljubljana	

## Free topics

32.	<b>Dioxin concentration in cows' milk in dependence on feed and soil contamination</b>	52
	Ann Johanna Schulz, T. Wiesmüller, H. Appuhn, D. Stehr, K. Severin, D. Landmann and J. Kamphues – Hannover	
33.	<b>Palatinose-molasses – digestibility, energy content and use in piglet feeding</b>	53
	Brigitte R. Paulicks and Dora A. Roth-Maier – Freising-Weihenstephan	
34.	<b>Nutritional value of <i>Chlorella vulgaris</i>: effects of ultrasonication and electroporation on digestibility in rats</b>	54
	P. Janczyk, H. Franke, S. Jahn, D. Sparborth, W. B. Souffrant – Dummerstorf/Bergholz-Rehbrücke/Frankenförde	
35.	<b>Introducing a method for quantifying the osmolality in green forage and silages</b>	55
	Sandra Hoedtke, K. Friedel, M. Gabel - Rostock	
36.	<b>Effects of dietary energy components on meat quality and fatty acid composition of Simmental bulls</b>	56
	Ahmed S. Sami, J. Kögel, H. Eichinger and F. J. Schwarz – Freising-Weihenstephan/Grub	
37.	<b>In-vitro Method for Measuring the Proteolytic Activity in Plant Juices</b>	57
	Anja Bickel, K. Friedel and M. Gabel – Rostock	
38.	<b>Potential and actual forage availability along the grazing routes of cattle in the Sahelian zone</b>	58
	Eva Schlecht, I. Kadaouré – Stuttgart-Hohenheim	
39.	<b>Leptin-like immunoreactivity of different antibodies in tissues of rainbow trout (<i>Oncorhynchus mykiss</i>)</b>	59
	Barbara A. Pfundt, M. Mielenz, Helga Sauerwein – Bonn	
40.	<b>Cactus pear (<i>Opuntia ficus-indica</i>): A strategic crop in combating food and feed insecurity and desertification in Tigray, northern Ethiopia</b>	60
	F. Tegegne, K. J. Peters and C. Kijjora - Berlin	
41.	<b>Microscopic evidence of orally supplemented humic acids in the intestinal wall and selected lymph nodes of piglets – Preliminary results</b>	61
	Kirsten Buesing, Frauke Runge, J. Harmeyer, E. Boldt, K. D. Markuske and Annette Zeyner – Leipzig/Hannover	
42.	<b>Effects of Deoxynivalenol on growth performance and electrophysiological properties of the intestinal mucosa of broilers</b>	62
	Wageha Awad, J. Böhm, E. Razzazi-Fazeli, J. Zentek – Wien	

43. **Nutritional assessment of GM-potatoes in broiler feeding** 63  
Ingrid Halle, R. M. E. El Sanhoty and G. Flachowsky - Braunschweig

## Additives

44. **The effect of sodium butyrate on growth and intestinal microflora of weanling pigs** 64  
G. Biagi, E. Vezzali, A. Piva and F.X. Roth – Bologna/Freising-Weihenstephan
45. **Praecaecal and postcaecal influences of inulin (DP 10-12), Mannan oligosaccharides or a synbiotic combination of these substances with *Enterococcus faecium* on nutrient digestibility and microbial characteristics** 65  
Gertraud R. Branner, Barbara M. Böhmer and Dora A. Roth-Maier – Freising-Weihenstephan
46. **New plant materials have the potential to reduce the degradation of dietary protein by rumen microbes *in vitro*** 66  
Natascha Selje, Ellen M. Hoffmann, K. Becker – Stuttgart-Hohenheim
47. **The effect of condensed and hydrolysable tannins on the degradation of selected polypeptides from various protein sources *in vitro*** 67  
J. Wamatu, S. Muetzel, E. Hoffmann, K. Becker – Stuttgart-Hohenheim
48. **Effects of grinding intensity combined with potassium diformate (KDF) as feed additive in reared piglets experimentally infected with *Salmonella* derby** 68  
J. Kamphues, S. Papenbrock, I. Brüning, G. Amtsberg and J. Verspohl – Hannover
49. **Effects of a phytogetic feed additive on parameters of intestinal microflora of piglets after weaning** 69  
Annabell Muhl and F. Liebert – Göttingen
50. **Response of intestinal microbiota and immune system to a probiotic *Bacillus cereus* var. *toyoi* preparation as well as its consequences for piglet performance** 70  
D. Taras, M. Macha, M. Nordhoff, M. Pollmann, L. Scharek, P. Schierack, P. Schwerk, K. Tedin, W. Vahjen, M. F. G. Schmidt, L.H. Wieler and O. Simon – Berlin
51. **A comparative evaluation of the nutritive efficacy of sorbic acid, probiotic or prebiotic additives and of combinations of these substances in the weanling piglet** 71  
T. Eittle and F. X. Roth – Freising-Weihenstephan
52. **Effect of a dietary probiotic supplementation on performance, health status, and microbial gut characteristics of gilts** 72  
Barbara M. Böhmer, W. Kramer, Dora A. Roth-Maier – Freising-Weihenstephan/Kapfenberg
53. ***Sapindus rarak* saponins do not affect rumen protein degradation *in vitro*** 73  
S. Muetzel, R. Akpagloh, K. Becker – Stuttgart-Hohenheim
54. **A methanol extract of *Knautia arvensis* delays the ruminal degradation of dietary protein *in vitro* in a dosage-dependent manner** 74  
Ellen M. Hoffmann, Natascha Selje, K. Becker – Stuttgart-Hohenheim
55. **Effects of dietary Jerusalem artichoke (*Helianthus tuberosus*) on faecal microbiota of weaned piglets** 75  
Brigitta Kleessen, S. Schwieger, W. Schroedl, H. Fuhrmann, Annette Zeyner, E. Boldt, Kirsten Buesing, Maxie Krueger, Sandra Schwarz and Monika Krueger – Leipzig

56.	<b>Inulin supplementation of a semi-synthetic diet does not affect the microbiota in the small and large intestine of growing pigs</b>	76
	G. Loh, M. Eberhard, R. M. Brunner, U. Hennig, M. Kwella, C. C. Metges – Dummerstorf	
57.	<b>In vitro effects of the flowering tops of St. John’s Wort and essential oil of Pine tree on ruminal nitrogen turnover and ruminal microbes</b>	77
	Carla R. Soliva, S. Widmer, Céline Bouldoires Mumenthaler and M. Kreuzer – Zurich/Endingen	
58.	<b>Effect of exogenous enzyme supplementation on gut functions of early-weaned pigs</b>	78
	V. Sileikiene, G. Diebold, M. Tafaj and R. Mosenthin – Stuttgart-Hohenheim	
59.	<b>Dietary betaine increases ileal and fecal digestibilities of several nutrients in piglets</b>	79
	M. Eklund, J. Wamatu, H. P. Piepho, M. Tafaj and R. Mosenthin – Stuttgart-Hohenheim	
60.	<b>Effect of a phytogenic feed additive on growth, protein digestibility, protein utilization and lysine efficiency of weanling piglets</b>	80
	Annabell Muhl and F. Liebert – Göttingen	
61.	<b>Impact of different feed additives on feather growth and moulting in pet birds (<i>Agapornis spp.</i>)</b>	81
	Nina Jürgens, Petra Wolf and J. Kamphues – Hannover	
62.	<b>Effect of Rare Earth Elements on ruminal fermentation as measured in vitro in Rumen Simulation Technique (RUSITEC)</b>	82
	U. Wehr, Carmen Knebel, W. A. Rambeck, M. Wanner – München/Zürich	
63.	<b>Effects of orally from birth to weaning supplemented <i>Enterococcus faecium</i> on diarrhoea patterns and performance of piglets</b>	83
	Annette Zeyner, Kirsten Buesing and E. Boldt – Leipzig	
64.	<b>Effects of lactoferrin supplementation on lymphocyte and plasma cell population in the gut mucosa of beagle puppies</b>	84
	Stefanie Handl, U. Wehr, J. Zentek – Wien/München	
65.	<b>Effects of lactoferrin on cellular and humoral immune parameters and the gut flora of dogs</b>	85
	Petra Hellweg, S. Krammer, A. Strasser, J. Zentek – Wien/Basel	
66.	<b>Effects of supplemented lactoferrin in calf feeding</b>	86
	Maria Luise Prenner, M. H. Erhard, Helga Sauerwein and F. J. Schwarz – Freising-Weihenstephan/München/Bonn	
67.	<b>Quantitative Real-time PCR assays to determine the influence of a probiotic <i>Enterococcus faecium</i> strain on <i>Enterococcus spp.</i> in the intestinal tract of piglets</b>	87
	W. Vahjen and O. Simon – Berlin	

## Transport- and epithelial physiology

68.	<b>Comprehensive functional characterization of the time course of rumen epithelium adaptation to a high energy diet</b>	88
	B. Etschmann, Jatti-Lynn Prießnitz and H. Martens – Berlin	
69.	<b>Functional and molecular evidence for bicarbonate exporting transporters in the ovine ruminal epithelium</b>	89
	Sabine Bilk, Kathrin Huhn, Kerstin U. Honscha, Helga Pfannkuche, G. Gäbel – Leipzig	
70.	<b>Investigations on the jejunal absorption of ochratoxin A in rats</b>	90
	R. Blank, Katharina Traulsen, S. Wolffram – Kiel	

71.	<b>Field study on the Immunoglobulin G-status in newborn calves comparing three different retention periods with their dam</b>	91
	Elke Heyn, Kristina Lipp, M. H. Erhard – München	
72.	<b>Influence of lactation, involution and dietary phosphorus supply on the expression of vitamin D<sub>3</sub> receptor and Na<sup>+</sup>/P<sub>i</sub> cotransporter type IIb in mammary gland of goats</b>	92
	Korinna Huber, Alexandra Muscher, Diana Peters, E. Pfeffer and G. Breves – Hannover/Bonn	
73.	<b>Effects of verapamil on ruminal transport of electrolytes</b>	93
	Sabine Leonhard-Marek and B. Schröder – Hannover	
74.	<b>Development of monoclonal antibodies directed against the Na<sup>+</sup>/Mg<sup>2+</sup>-antiporter and their use in ruminal epithelial cells</b>	94
	Monika Schweigel, Freya Buschmann, B. Etschmann, J. Vormann – Dummerstorf/Berlin/Ismaning	
75.	<b>Effect of black tea extract on forskolin-induced chloride secretion in rat jejunum</b>	95
	R. Cermak and Maaïke Bruins – Kiel/Vlaardingen	
76.	<b>Establishment of a primary colon epithelial cell culture of farrows</b>	96
	H.-J. Raqué, Helga Pfannkuche, G. Gäbel – Leipzig	
77.	<b><i>In vitro</i> study on the transfer of the <i>Fusarium</i> toxins deoxynivalenol (DON), zearalenone (ZON), alpha-zearalenol (<math>\alpha</math>-ZOL) and beta-zearalenol (<math>\beta</math>-ZOL) across ruminal epithelium of sheep</b>	97
	S. Dänicke, G. Breves, K.-H. Ueberschär, H. Valenta – Braunschweig/Hannover	
78.	<b>Na is transported across the isolated omasal epithelium of sheep by two independent electroneutral transport mechanisms</b>	98
	O. Ali, H. Martens – Karthoum/Berlin	
79.	<b>Transport of acetate across the isolated omasal epithelium of sheep: Evidence for non-ionic diffusion</b>	99
	O. Ali, H. Martens and Z. Shen - Karthoum/Berlin/Nanjing	
80.	<b>Isolated cells of the ruminal epithelium express chloride channels</b>	100
	Friederike Stumpff, I. Brinkmann and H. Martens – Berlin	
81.	<b>Effects of dietary phosphorus restriction on the renal PTH and vitamin D<sub>3</sub> receptor protein expression in goats</b>	101
	Alexandra Muscher, Julia Hattendorf, Korinna Huber, E. Pfeffer, G. Breves – Hannover/Bonn	
82.	<b>The effect of dietary nitrogen restriction on the UT-A urea transporter mRNA abundance in ruminal and colonic epithelia of goats</b>	102
	Diana Peters, Korinna Huber, E. Pfeffer, G. Breves – Hannover/Bonn	

## Vitamins

83.	<b>Effects of high-level dietary B-vitamins on performance, body composition, and vitamin contents of growing/finishing pigs</b>	103
	Barbara M. Böhmer, Dora A. Roth-Maier – Freising-Weihenstephan	
84.	<b>Investigations on the intestinal absorption of tocotrienols in dogs</b>	104
	J. Raila, G. Abraham, S. Rohn, Annett Trüppschuch, F. R. Ungemach and F. J. Schweigert – Potsdam/Leipzig	
85.	<b>Fortification of eggs with folic acid to easily enhance the folic acid status of populations</b>	105
	Dora A. Roth-Maier, Barbara M. Böhmer – Freising-Weihenstephan	

86. **A survey of blood vitamin levels in healthy adult dogs** 106  
Janina Tran, Christa Horvath, Stefanie Krammer, U. Höller, J. Zentek –  
Wien/Basel

## Fat and lipids

87. **Effects of dietary fish protein on the lipid metabolism in rats** 107  
K. Eder, H. Sachs, A. Shukla, C. Brandsch – Halle (Saale)
88. **Interrelation of polyunsaturated fatty acids, phospholipases and mast cell mediator release** 108  
T. Gück, A. Seidel and H. Fuhrmann – Leipzig
89. **Influence of polyunsaturated fatty acids (PUFA) and the rumen-milieu on ruminal production of *trans*-fatty acids (*t*FA) and conjugated linoleic acids (CLA), their flow into the duodenum and their content in the milk fat** 109  
Kristin Erdmann, P. Lebzien, Liana Hüther, G. Flachowsky, P. Möckel,  
G. Jahreis – Braunschweig/Jena
90. **Fatty acid kinetics of plasma and leukocyte membranes in horses after supplementation and withdrawal of sunflower and seal oil** 110  
Annabella Khol-Parisini, R. van den Hoven, H. W. Hulan, J. Zentek –  
Wien/Neufundland
91. **Concentrations of cholesterol oxidation products in raw, heated and frozen-stored breast and thigh muscle of broilers fed diets with various fats and vitamin E concentrations** 111  
C. Brandsch, G. Grünthal, H. Kluge, F. Hirche, K. Eder – Halle (Saale)
92. **The effect of dietary fat (palm oil vs. soybean oil) and dietary vitamin E concentration on concentrations of cholesterol oxidation products in meat of pigs** 112  
H. Kluge, C. Brandsch, G. Grünthal, F. Hirche, K. Eder – Halle (Saale)
93. **Erythrocyte fatty acid composition in atopic and healthy dogs** 113  
Annett Zimmermann, T. Gueck and H. Fuhrmann – Leipzig
94. **Effects of exposure time to dietary phytol intake on the phytanic acid accretion and fattening performance of finishing pigs** 114  
M. R. L. Scheeder R. Rapold, S. Gebert, C. Kunz and C. Wenk – Zürich
95. **Glycemic and insulinemic response of Quarter Horses to concentrates high in fat and low in soluble carbohydrates** 115  
Annette Zeyner, Conny Hoffmeister, Almuth Einspanier, O. Lengwenat,  
M. Illies – Leipzig
96. **Effects of dietary conjugated linoleic acids in female rats during pregnancy and lactation on their reproductive performance and the development of the newborn pups** 116  
K. Eder, R. Ringseis, D. Saal, A. Müller, H. Steinhart – Halle (Saale)/Hamburg

## Minerals and traceelements

97. **Effect of selenite and selenate on differential expression of genes related to glucose metabolism and diabetes studied in healthy growing rats** 117  
A. S. Müller, Astrid Bosse, Erika Most and J. Pallauf – Giessen
98. **Excretion and ileal flow of phosphorus in broiler chickens as affected by P supply** 118  
A. Dieckmann, R. Timmler and M. Rodehutsord – Halle (Saale)

99.	<b>Parameters for the selenium requirement of guinea pigs (<i>Cavia porcellus</i>)</b>	119
	Christine Jensen and J. Pallauf – Giessen	
100.	<b>Influence of different selenium doses on parameters of the antioxidative status in rats</b>	120
	Astrid Bosse, A. S. Müller, Erika Most and J. Pallauf – Giessen	
101.	<b>Einfluss von Selen auf die Inkorporierung von Fettsäuren in die Dotterphospholipide des Hühnereis</b>	121
	K. Schäfer – Berlin	
102.	<b>Reduced activity of manganese dependent enzymes in piglets as an indicator of subclinical manganese deficiency</b>	122
	C. Kauer, K. Brandl and J. Pallauf – Giessen	
103.	<b>Influence of a marginal zinc deficiency on the activity of the key enzyme of <math>\beta</math>-oxidation of unsaturated fatty acids in growing rats</b>	123
	Jennifer Justus, E. Most, E. Talmon, E. Weigand – Giessen	
104.	<b>Influence of the time of day on several minerals in cow blood</b>	124
	Silke Öhlschläger, M. Spolders, U. Meyer, G. Flachowsky, H. Scholz – Braunschweig/Hannover	

## Digestion

105.	<b>Prevalence of Subacute Ruminant Acidosis in Dutch Dairy Herds – Results of a field study</b>	125
	J. L. Kleen, G. A. Hooijer, J. P. T. M. Noordhuizen and J. Rehage – Hannover/Utrecht	
106.	<b>Intake, fibre digestion and methane emission of dairy cows fed red and white clover in addition to ryegrass</b>	126
	H. Anette van Dorland, M. Kreuzer, H. Leuenberger and H.-R. Wettstein – Zürich	
107.	<b>Methane and nitrogen losses from slurry of cows fed different roughage qualities with or without concentrate</b>	127
	H.-R. Wettstein, Ida K. Hindrichsen and M. Kreuzer – Zurich	
108.	<b>Discrepancies between milk fat content, chewing activity and rumen milieu concerning structural effectiveness evaluation of diets with different hay: concentrate ratio in dairy cows</b>	128
	M. Tafaj, Anja Maulbetsch, Q. Zebeli, H. Steingäß and W. Drochner – Stuttgart-Hohenheim	
109.	<b>Effects of probiotic bacteria on intestinal mRNA cytokine expression patterns in dogs with food-responsive diarrhea</b>	129
	Stephanie N. Sauter, Karin Allenspach, F. Gaschen, E. Ontsouka, J. Benyacoub, Ruth Knorr and J. W. Blum – Bern/Lausanne/St. Louis	
110.	<b>In situ dry matter degradability of maize hybrid residual plants depending on the stage of maturity</b>	130
	H. Kurtz and F. J. Schwarz – Freising-Weihenstephan	
111.	<b>Relationship of protein to carbohydrate degradation in the rumen from different feedstuffs and diets</b>	131
	Th. Schmidt, K. Krawielitzki, M. Gabel, J. Voigt – Rostock	
112.	<b>Effect of cation-anion-balance on urine pH of horses is affected by roughage/concentrate ratio</b>	132
	Ellen Kienzle, K. Stürmer, D. Ranz, M. Clauss – München	
113.	<b>Effects of incorporating various levels of cactus pear (<i>Opuntia ficus-indica</i>) on dry matter intake, water consumption, digestibility and performance of Ethiopian growing sheep</b>	133
	F. Tegegne, Claudia Kijora and K. J. Peters - Berlin	

114.	<b>Digestion studies in captive black rhinoceroses (<i>Diceros bicornis</i>)</b>	134
	M. Clauss, Johanna C. Castell, Ellen Kienzle, Ellen S. Dierenfeld, E. J. Flach, O. Behlert, Sylvia Ortmann, W. J. Streich, J.-M. Hatt – München/St. Louis/ London/ Köln/ Berlin/ Zürich	
115.	<b>Degradation of phytate in the stomach and small intestine of pigs</b>	135
	U. Schlemmer, P. A. Kemme, Z. Mroz and A. W. Jongbloed - Karlsruhe/ Lelystad	
116.	<b>The effect of lysine intake on energy partitioning and utilization in growing pigs</b>	136
	Judith Ringel and A. Susenbeth – Kiel	
117.	<b>Effect of feeding faba beans low in vicine and convicine on endogenous N-secretion and praecaeal digestibility of crude protein and amino acids in broilers</b>	137
	Annette Simon and K.-P. Götz – Berlin	
118.	<b>Effect of the cultivation site (Kenya or Colombia) on ruminal fermentation characteristics of <i>Calliandra calothyrsus</i> var. Patulul</b>	138
	H. D. Hess, F. Noto, T. T. Tiemann, S. Franzel, C. E. Lascano and M. Kreuzer – Zürich/Nairobi/Cali	
119.	<b>Influence of particle size of grass silage fed in TMR on passage rate and digesta volume in high-yielding dairy cows</b>	139
	B. Junck, M. Tafaj, Q. Zebeli, H. Steingäß and W. Drochner – Stuttgart- Hohenheim	
120.	<b>Effect of hay particle size and concentrate level on ruminal mat characteristics in dairy cows</b>	140
	Q. Zebeli, M. Tafaj, B. Junck and W. Drochner – Stuttgart-Hohenheim	
121.	<b>Studies on the use of the synthetic <i>n</i>-alkane C36 to estimate passage rates in the digestive tract of sheep</b>	141
	M. Bulang, C. Elwert, H. Kluth and M. Rodehutschord – Halle (Saale)	
122.	<b>Impact of stage of maturity and method of conservation of a ryegrass-clover sward on <i>in sacco</i> degradability and factors describing physical structure</b>	142
	Frigga Dohme, C. M. Graf, Y. Arrigo and M. Kreuzer – Posieux/Zürich	
123.	<b>Utilizable crude protein (nXP) of treated lupines, peas and soybean meal and the performance of dairy cows</b>	143
	S. Trinkl, H. Kurtz, Sabine Scheuermann and F. J. Schwarz – Freising- Weihenstephan	
124.	<b>Differences of <i>in vitro</i> fermentative behaviour of forage classes</b>	144
	J. Hummel, E. Pfeffer, W. J. Streich, Ellen Kienzle, M. Clauss – München/Bonn/Berlin	
125.	<b>NBT-PABA test to assess proteolytic pancreatic enzyme activity in the pancreatic duct ligated minipig model of pancreatic exocrine insufficiency</b>	145
	J. Karthoff, A. Mößeler, K. Stemme, P. C. Gregory, J. Kamphues – Hannover	
126.	<b>Effect of <i>Fusarium</i> toxin contaminated wheat and wheat chaff on nutrient utilisation and turnover of deoxynivalenol <i>in vitro</i> (RUSITEC)</b>	146
	Karen Seeling, J. Boguhn, E. Strobel, S. Dänicke, M. Rodehutschord – Braunschweig/Halle (Saale)	
127.	<b>Effect of nonstarch polysaccharides (NSP) hydrolysing enzyme supplementation on some rumen parameters in lactating dairy cows</b>	147
	A. Böning, U. Meyer, U. Borchert and P. Lebzien – Braunschweig	
128.	<b>Group- and species-specific quantification of ruminal microorganisms using real time PCR</b>	148
	S. Janßen, E. Strobel, K. Seeling, G. Flachowsky and C. C. Tebbe – Braunschweig	

<b>129.</b>	<b>Effect of nonstarch polysaccharides (NSP) enzyme supplementation on ruminating activities of dairy cows</b>	149
	A. Böning, U. Meyer and M. Spolders – Braunschweig	
<b>130.</b>	<b>Nutrient digestibility and nitrogen balance of growing and finishing pigs fed diets supplemented with ergoty rye</b>	150
	Simone Mainka, S. Dänicke, H. Böhme, K.-H. Ueberschär, G. Flachowsky – Braunschweig/Celle	
<b>131.</b>	<b>The use of microcalorimetry to determine fermentative heat energy as an indicator of microbial activity in caecum content of pigs fed diets differing in BFS content</b>	151
	Elke Meister, D. Berthold, F. Beese, T. Vor, G. Breves, Hj. Abel – Göttingen/Hannover	
<b>132.</b>	<b>Cytokine expression patterns in intestinal samples of dogs suffering from chronic inflammatory bowel disease</b>	152
	Stephanie N. Sauter, Karin Allenspach, F. Gaschen, E. Ontsouka, J. Benyacoub and J. W. Blum – Bern/Lausanne	
<b>133.</b>	<b>Characteristics of intake behavior of grass silage in late-lactating dairy cows</b>	153
	M. Kaske, Y. Hailu, U. Meyer, J. Rehage and G. Flachowsky – Hannover/Braunschweig	
<b>134.</b>	<b>Fermentation of selected substrates <i>in vitro</i> using a modified ‘Hohenheim Gas Test’ with faeces from equines as inoculum</b>	154
	Beate Bosch, K. D. Markuske, M. Füll, I. Mohamed, Monika Krüger, Annette Zeyner – Leipzig	
<b>135.</b>	<b>Investigations on energy requirement for maintenance in lories</b>	155
	Annett-Carolin Häbich, Petra Wolf and J. Kamphues – Hannover	
<b>136.</b>	<b>Insulin-like growth factor (IGF)-I plasma concentrations in dogs with chronic enteropathies</b>	156
	Anna-Catrina Spichiger, Stephanie N. Sauter, Karin Allenspach, Yolande Zbinden, M. Doherr and J. W. Blum – Bern	
<b>137.</b>	<b>Effects of the prebiotic inulin on <i>in vitro</i> ruminal microbial metabolism</b>	157
	H. Öztürk and G. Breves – Ankara/Hannover	

## **Feeding in ecological animal husbandry**

<b>138.</b>	<b>Impact of conventional and biological feeds on growth and slaughter performance of two types of broiler hybrids</b>	158
	R. Leitgeb, G. Gaber, Maria Weber and Katharina Krall* – Wien/Gödöllő	

## **Workshop:**

### **Aktuelle Aspekte der Futtermittelbewertung**

<b>W1.</b>	<b>Futtermittelkundliche Fragen bei der Erstellung der Positivliste</b>	161-163
	V. Potthast, E. Schulz, H. Schenkel – Gaukönigshofen/Braunschweig/Stuttgart-Hohenheim	
<b>W2.</b>	<b>Feed evaluation of newer byproducts</b>	164-168
	H. Schenkel – Stuttgart-Hohenheim	
<b>W3.</b>	<b>Hygiene of feeds and feeding</b>	169-173
	J. Kamphues – Hannover	
<b>W4.</b>	<b>Precaecal digestibility in feedstuff evaluation for poultry and pigs</b>	174-180
	M. Rodehutschord and R. Mosenthin – Halle (Saale)/Stuttgart-Hohenheim	

<b>W5. Evaluation of a protein rich fraction of sunflower meal as a replacement of soybean meal in growing broiler diets</b>	181
F. Fru Nji, E. Pfeffer – Bonn	

**Communications of the Committee for Requirement Standards**  
Mitteilungen des Ausschusses für Bedarfsnormen

<b>Standardised precaecal digestibility of amino acids in feedstuffs for pigs – methods and concepts</b>	185-205
