## Review lecture

**Host-microbiota interactions in the digestive tract** 19

*M. Blaut – Nuthetal*

---

## Digestion

**1 Interactions between supplements of monocalcium phosphate and a phytase on the presence of inositol phosphates in the ileum of broilers** 27

*Zeller, E., Schollenberger, M., Kühn, I., Rodehutschord, M. – Stuttgart-Hohenheim/Darmstadt*

**2 Influence of particle size distribution in the diet and further compaction on the prececal digestibility of starch, crude protein and amino acids in broilers** 28

*Sander, S. J., Bormann, T., Kluth, H., Witte, M., Üffing, B., Kamphues, J. - Hanover/Halle-Wittenberg*

**3 Influence of soluble and insoluble non-starch-polysaccharides on digesta passage rate in growing layers after infection with nematodes** 29

*Lambertz, C., Das, G., Humburg, J., Abel, H., Gauly, M. - Göttingen*

**4 Methane emission from camelids: A comparison of measured data with literature data from ruminants** 30

*Dittmann M. T., Runge U., Lang R. A., Moser D., Galeffi C., Kreuzer M., Clauss M. - Zurich/Neukirch/Thur/Cochranton/Basel*

**5 Effect of different levels of soluble carbohydrates in hay on ruminal fermentation, microbial profile and plasma acute phase protein concentration in dairy cows** 31

*Münger, A., Ineichen, S., Zeitz, J. O., Wellnitz, O., Dohme-Meier, F. - Posieux/Zurich/Gießen/Bern*

**6 Fermentation profile of particle-associated (PARL) and free rumen fluid (FRL) in dairy cows fed barley-based diets treated with lactic acid and heat** 32

*Zebeli, Q., Gschaider, S., Abdel-Raheem, S., Khol-Parisini, A., Gruber, L., Gasteiner, J. - Vienna/Gumpenstein*

**7 Processing of barley grain with lactic and tannic acid modulates ruminal fermentation and nutrient degradation in a Rusitec system** 33

*Deckardt, K., Zebeli, Q. - Vienna*

**8 Effects of a glyphosate-based herbicide on *in vitro* ruminal fermentation and microbial community with special attention to clostridia** 34

*Riede, S., Schafft, H., Lahrssen-Wiederholt, M., Breves, G. - Hanover/Berlin*

**9 Effects of 25-Hydroxyvitamin D3 in combination with anionic salts on localization and extent of gastrointestinal calcium absorption in dairy cattle** 35

*Oehlschlaeger, V., Wilkens, M., Schröder, B., Dänicke, S., Breves, G. - Hanover/Braunschweig*

**10 Influence of a *Lawsonia intracellularis* infection on the nutrient digestibility (total tract) and growth rate in vaccinated or not vaccinated young pigs** 36

*Mischok, J., Visscher, C. F., Sander, S. J., Peitzmeier, E., Kamphues, J. - Hanover/Hille*

---

<b>11</b>	<b>Comparison of calculated and experimentally determined standardised ileal digestibility of crude protein and amino acids in mixed feeds for fattening and finishing pigs containing different levels of amino acids</b>	<b>37</b>
	<i>Büsing, K., Berk, A., Müller, S., Kieckhäfen, S., Hagemann, L., Weber, M., Riewenherm, G., Har- dinghaus, A., Krüger, K., Rademacher, M., Otten, C., Matthes, W., Claus, H., Zeyner, A. - Rostock/ Braunschweig/Jena/Teltow-Ruhlsdorf/Iden/Düsseldorf/ Neuenkirchen-Vörden/Hanau-Wolfgang/ Dummerstorf/Kiel/Halle-Wittenberg</i>
